Frontend, Responsive, Github, Arduino, App Development, ...

Experience Design

Brainstorm, Prototype, User Testing, Information Architecture, Umwelt, Interview, ...

Design

Responsive, Branding, App Design, Storytelling, Digital Campaign, ...

Motion

Animation Principles, Sound Design, Product Animation, ...

Passionate about turning ideas into clean, user-friendly web experiences. I'm structured, organized, and value teamwork. Through my studies, I've developed a customer-oriented mindset and a solution-focused approach. Calm under pressure, eager to learn, and driven to keep improving my frontend skills.

Employment History

Warehouse Worker & Island Supervisor   Lichtvis

Jul 2021 - Present   Koekelare, Belgium

Efficiently sorted and packaged school books, maintained organized inventory, ensured timely distribution, applied quality control, and trained new team members.

Education

Electricity-Electronics   VTI Tielt

Sep 2019 - Jun 2023   Tielt, Belgium

Learned various electronic calculations and gained a solid understanding of electronic components. I also learned how to program them using Arduino.

Digital Design and Development   Howest

Sep 2023 - Present   Kortrijk, Belgium

Learned to design and develop user-friendly web applications using UX/UI principles and technologies like HTML, CSS, JavaScript, Figma, GitHub, ...
